DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Wurz et al. (US Patent No. 5,705,021).
3. Wurz discloses a sheet supply section, a sheet cutting section, and a sheet set section with a vacuum transfer head capable of performing the functions set forth in the applicants claims. A recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. See *In re Casey*, 152 USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963). The preamble has not been given patentable weight because it merely recites the purpose of a process or the intended use of a structure. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

Specification

4. The disclosure is objected to because of the following informalities: Page 19, line 22 refers to Figure 7 and then discusses seven work stages. These work stages are disclosed in Figure 10, not in Figure 7.

Art Unit: 1734

Appropriate correction is required.

Allowable Subject Matter

5. Claims 3-16 are allowed.
6. The following is an examiner's statement of reasons for allowance: Prior art fails to teach or suggest the output lead wire apparatus as set forth in claims 3-4, the sheet set apparatus set forth in claims 5-8, and the sealing preparation apparatus detailed in claims 9-16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Listed on attached PTO-892.
8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sue A. Purvis whose telephone number is (571) 272-1236. The examiner can normally be reached on Monday through Friday 9am to 6pm.
